

WE MEET 2015

MARCH 3RD - 5TH

Watt-hour Engineering's eighth biennial We Meet will be held in our very own manufacturing and conference facilities. You'll get an opportunity to tour the plant, see the latest hardware and software advances, and get valuable, hands-on training.

Courses are taught by WECO and RADIANT's industry-leading staff of engineers, programmers, and technicians with over two hundred and fifty combined years of metering experience. Every aspect of meter testing is covered. Whether you test, run reports in WATT-Net Express™ or perform a Standards Compare at the shop; in the field with a van-mounted Model 4330 or portable RW-31; or conditioning meters in the lab with a Model 2300, We Meet's instructors offer practical tips and expert advice.

2015's We Meet promises to be our best We Meet yet! Three full days of training. Not only will there be General Group Sessions, you will also have the opportunity to have specialized hands-on training in small groups of four or fewer students, on software as well as hardware. Fill out the form included in this Registration Package to let us know which classes you are interested in attending. You will receive your personalized class schedule at the Welcome Meeting on Tuesday morning.

COURSE DESCRIPTIONS:

HANDS-ON TRAINING	Winboard/M2XXX	Hands-on all topics related to Winboard and any of the Model 2XXX Series Testboards.
	Winboard 3/M4XXX	Hands-on all topics related to Winboard 3 and any of the Model 4XXX Series Testboards
	WATT-Net Express	Tom Van Valkenburgh will provide hands-on training covering the features, functions and benefits of Watt-Net Express.
	Bantam Plus	Bob Whitmore will lead a hands-on product overview, meter test setup, testing and viewing the results.
	RW-3X / WE-30 / WE-20	Ryan Roth will lead a hands-on class with topics related to Winboard Embedded and any of our field solution three-phase meter site analyzers.
	PAT M3010	Hands-on all topics related to the Portable Automated Test System.
	RD Standards	Joel Canine will provide hands-on with meter testing, standards compare testing, and PC Suite.
	TX Auditor	Bob Whitmore will lead a hands-on product overview, site setup, testing and viewing the test results.

GENERAL GROUP SESSIONS:	General Testing	Marcus Zickefoose asks Why Test?
	Delta Testing	Lea Wren will lead a discussion of the many pitfalls of testing with a delta service.
	Power Quality	Tom Eddleman asks What is Power Quality?
	Standards Traceability	Pete Dack presents this seminar addressing Legal Metrology and why we need standards. It provides the necessary understanding on best measurement practices as well as how to question the 'small print' often found with product specifications.
	WATT-Net Plus	Tom Van Valkenburgh will show the features, functions and benefits of WATT-Net Plus.
	M4XXX Testboards	Stephen Brown will lead an introduction to the features of the Model 4XXX Series.
	Harmonics	Brett Birdwell asks How does Harmonics affect metering?
	Advanced Power Quality	Sayri Hernandez presents an Introduction to Power Quality and the IEC 61000-4-XX Standards. How Power Quality applies to Advanced Metering and examples of capturing and analyzing measurement data.
	After Sales, Services & Customer Support	Raeann Jackson will show you how to get the best out of our Sales, Services & Customer Support resources. In addition it will show the benefits to budgeting extended care-plans, and share how we record and manage customer feedback (good or bad)!
	RS-703A & RS-933 Traceability	The 703 and 933 are essential components in watt-hour traceability. Pete Dack will provide details on application, software and what to do with the measurement data. This session will appeal to those users that plan to calibrate their own Energy Reference Standards.
	CT Testing	William Waltress will demonstrate how to perform an on site CT test using a WE-30 and/or RW-3X.
	Site Analysis	Ryan Roth asks Is Your Site Wired Correctly?

Cost: The per person early registration fee for We Meet 2015 is \$300.00.
